

FINANCIAL REPORT

2015-2016

ABOUT THE COVER:

In March 2016, Moravian College hosted a ribbon-cutting ceremony for its recently renovated, state-of the-art Sports Medicine and Rehabilitation Center. The 43,000+ square-foot building is home to the brand new Master of Science in Athletic Training program, currently in its first cohort. Occupational Therapy, Speech Pathology and a doctoral Athletic Training program will soon be added. With six research labs, a dedicated distance learning room and plenty of student collaboration areas, this building is the embodiment of experiential learning.

“Growth is never by mere chance; it is the result of forces working together.”

- James Cash Penney

And the force has been strong at Moravian College this past 2015/2016 fiscal year. The College enrolled its largest incoming class in its 274-year history; 527 freshmen joined the class of 2019 in August 2015. Additionally, we welcomed 93 transfer students bringing total full time equivalent day student enrollment for the fall to over 1,700. The 2015/2016 year was the second year of the MacBook Pro and iPad implementation. Freshman and Sophomores now have a common technology platform to transform their educational experience at Moravian College.

Continued investments in our current and future students are reflected in the capital improvements made this year. In December 2014, Moravian College purchased the property of 1441 Schoenersville at the west end of campus and began renovations in 2015 in order to make it a world-class educational space for the Masters of Athletic Training degree program. The project was completed in 2016 and the College welcomed its first cohort of graduate trainers in June 2016. Additionally, the College’s long-time health care partner, St. Luke’s Health University Network, has opened Primary Care Sports Medicine and Physical Therapy centers in the building – combining programmatic and direct patient interaction for our Athletic Training Master’s Degree candidates.

In December of 2015, Moravian College executed an equity substitution agreement with the Bethlehem Area Moravians to assume ownership of Moravian College Housing, Inc. (MCHI). As a result, the Hurd Integrated Living and Learning (HILL) dormitory on south campus will be managed by the College. Financial statements reflect this new arrangement and the detail can be found in the supplementary schedules. Additional information regarding the acquisition and its impact can be found in the footnotes to the financial statements.

In May, 2016 the College held the ground-breaking ceremony for the Sally Breidegam Miksiewicz Center for Health Sciences. The 56,000 square-foot facility, which is scheduled for completion by August 2017, will house state of the art labs and classrooms in support of the College’s growing health science programs. In September 2016, the John Makuvek Field, a synthetic turf field, was dedicated. The field will serve our athletes participating in soccer, field hockey and lacrosse.

Funding for these exciting projects has come from a combination of debt and generous gifts. Moravian College issued tax exempt bonds totaling \$30 million, inclusive of premium, in February 2016. Additionally, with the equity substitution, the College has absorbed MCHI’s financing of the HILL building totaling \$19.7 million, however the debt of MCHI is excluded from the College’s obligated group.

The College and Seminary endowment dipped slightly during the year, ending with a market value of \$102 million as of June 30, 2016. Over the past 5 years the fund has received gifts of \$16.7 million and has provided \$27 million in support for operations and capital projects. Investment returns for the one, three and five year periods were -2.2%, 4.7%, and 4.8%, respectively. The endowment spending rate for 2015/2016 remained a conservative 4.5% producing approximately \$4.3 million, of which \$1.7 million was used for College and Seminary financial aid. As of June 30, 2016, the endowment investment portfolio consisted of 48.1% domestic and international equity, 11.3% fixed income, 9.9% real estate and natural resources, 27.5% alternative assets and 3.2% cash.

The positive trend for undergrad enrollment continues in 2016/2017 with annual enrollment expected to exceed 1,750 full time equivalent students. Retention has increased from last year’s freshman to this year’s sophomores and we now have 75% of the student body on the common MacBook Pro platform.

Financial Review

Statement of Financial Position

As mentioned earlier, consolidated net assets at fiscal year-end were up 6.7%, or \$11.7 million. All asset categories: unrestricted, temporarily restricted and permanently restricted, reflect net increases. Contributors to this positive increase include increased tuition revenue from higher enrollment and managed spending which resulted in positive operating leverage. Additionally, the equity substitution transaction of MCHI contributed \$1.8M to non-operating, unrestricted net assets.

Statement of Activities

In consolidation, operating revenues increased almost \$20 million from the prior-year. Revenues from net tuition and private restricted gifts were the largest contributors to this. Additionally, MCHI revenues from December 2015 through June 2016, represent \$870 thousand of the overall increase. This is reflected in Auxiliary enterprises.

Expense growth remained modest, but expenditures were strategically focused to benefit the increased student enrollment. This was deliberately aligned with Moravian College's Vision 2020 Strategic Plan.

Statement of Cash Flows

The primary purpose of the statement of cash flows is to provide relevant information about the cash receipts and cash payments of the consolidated enterprise. The information provided in the statement of cash flows, used with the related disclosures and information in the other financial statements, should aid investors, creditors and others to (1) assess the College's ability to generate positive future net cash flows; (2) assess the ability to meet current obligations and needs for external financing; (3) assess the reason for differences between the change in net assets and associate cash receipts and payments; and, finally, (4) assess the effects on the College's financial position of both its cash and non-cash investing and financing transactions during the year.

Operating activities: During the 2015/16 fiscal year, the consolidated operating activities of the College contributed \$20 million in cash. This figure is calculated based on the adjustments to the change in total net assets for non-cash operating items and the changes in certain asset and liability accounts.

Investing activities: Significant investments of note include the net equity investment in MCHI and the deposit of the 2016 Revenue bond proceeds in a construction fund with the trustee in order to service the capital projects in progress on campus.

Financing activities: As a result of the aforementioned investment activity, a large net cash inflow resulted from debt financing, specifically related to the issuance of the 2016 Revenue Bonds (February 2016) and the call of the 2005 Revenue Bonds (July 2015).

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of Moravian College and subsidiary (the "College"), which comprise the consolidated statement of financial position as of June 30, 2016 and 2015, and the related consolidated statements of activities, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Moravian College as of June 30, 2016 and 2015, and the changes in their net assets and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The consolidating schedule of financial position and consolidating schedule of activities are presented for purposes of additional analysis and are not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America..

Moravian College

Notes to Consolidated Financial Statements

June 30, 2016 and 2015

1. Nature of Operations

Moravian College is a private, coeducational liberal arts college and theological seminary located in Bethlehem, Pennsylvania. Tracing its founding to 1742, it is recognized as America's sixth-oldest college.

Founded by the Moravian Church, Moravian College today educates a socially and religiously diverse group of students. Moravian College has an enrollment of 1,653 full-time day students, 704 men and 889 women. Moravian College enrolls students that come from a variety of socioeconomic, religious, racial, and ethnic backgrounds.

Moravian College Housing, Inc. ("MCHI") is a non-profit corporation organized under the laws of the Commonwealth of Pennsylvania. The purposes of the organization is to develop and operate college and university student housing. Moravian College acquired MCHI effective December 10, 2015.

2. Summary of Significant Accounting Policies

Basis of Presentation

The consolidated financial statements of Moravian College have been prepared on the accrual basis of accounting and include the accounts of Moravian College and MCHI (collectively the College) from the date of acquisition. All significant intercompany transactions and balances have been eliminated in consolidation.

These consolidated financial statements present consolidated financial information showing the financial position, the activities, and the cash flows of the College reflecting the presence or absence of donor-imposed restrictions. Accordingly, the amounts of net assets are classified according to the nature of restrictions, as follows:

Unrestricted Net Assets

Net assets that are not subject to donor-imposed stipulations.

Temporarily Restricted Net Assets

Net assets which are subject to donor-imposed restrictions that will be met when expenditures are made for the designated purposes or with passage of time. The expiration of temporary restrictions on net assets is reported in the statements of activities as net assets released from restrictions. Temporarily restricted contributions and temporarily restricted endowment income whose restrictions are not met in the same period as received or earned are reported as increases in temporarily restricted net assets.

Permanently Restricted Net Assets

Net assets which are subject to donor-imposed restrictions that they be maintained permanently by the College. Generally, the donors of these assets permit the College to use all or part of the income earned on related investments for general or specific purposes.

Nonoperating Activities

Nonoperating activities reflect realized gains and losses on investments, unrealized gains and losses on investments, gains and losses associated with the sale of assets and changes in value of split interest agreements (primarily life income, annuity and trust agreements), and certain transfers between net asset classifications. Nonoperating activities also reflect the contribution from MCHI in connection with the acquisition of MCHI by Moravian College. See Note 3.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the College considers all highly liquid investments, with an original life of three months or less, to be cash equivalents.

Accounts Receivable

Accounts receivable are not collateralized. Student accounts receivable are reported at net realizable value. Accounts are written off when they are determined to be uncollectible based upon management's assessment of individual accounts. The allowance for doubtful accounts is estimated based on the College's historical losses and periodic review of individual accounts.

Student Loans Receivable and Refundable Federal Loan Funds

These loans are made with funds advanced to the College by the federal government under the Perkins Student Loan Program (the "Program"). Such funds may be reloaned by the College after collection, but in the event that the College no longer participates in the Program, the amounts are refundable to the federal government. The federal government's portion of these funds was approximately \$1,149,000 and \$1,153,000 at June 30, 2016 and 2015, respectively, and is recorded as a liability in the statement of financial position. The College contributes one-third of the amount contributed by the U.S. Government to the Program.

The prescribed practices for the Program do not provide for accrual of interest on student loans receivable. Accordingly, interest on loans is recorded as received and is reinvested to support additional loans; uncollectible loans are not recognized until the loans are canceled or written-off in conformity with the Programs requirements. The impact of recording interest income on a cash basis is not considered significant. In addition, the credit quality of the student is not evaluated until after the initial approval and calculation of the loans. Delinquent loans and the allowance for losses on loans receivable are reviewed by management, but are not material to the overall financial statements.

Promises to Give

Unconditional promises to give that are expected to be collected in future years are recorded at the present value of estimated future cash flows. The discounts on those amounts are computed using the expected rate of return of a market participant applicable to the year in which the promise is received. Amortization of the discount is included in contribution revenue. Conditional promises to give are not included as support until the conditions are substantially met.

Donor-Restricted Gifts

All contributions are considered to be available for unrestricted use unless specifically restricted by the donor. Amounts received that are designated for future periods or restricted by the donor for specific purposes are reported as temporarily or permanently restricted support that increases those net asset classes. When a donor restriction expires, temporarily restricted net assets are reclassified as unrestricted net assets and reported in the statement of activities as net assets released from restrictions. However, if a restriction is fulfilled in the same time period in which the contribution is received, the College reports the support as unrestricted.

Investments

The College's investments are comprised of a variety of financial instruments and are managed by investment advisors. The fair values reported in the statement of financial position are exposed to various risks including changes in the equity markets, the interest rate environment, and general economic conditions. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the fair value of investment securities, it is reasonably possible that the amounts reported in the accompanying consolidated financial statements could change materially in the near term.

All realized gains and losses arising from the sale of investments and ordinary income from investments are reported as changes in unrestricted net assets unless their use is temporarily or permanently restricted by explicit donor-imposed stipulations.

Split-Interest Agreements

Assets received under split-interest agreements, arrangements in which the College has a beneficial interest but is not the sole beneficiary, are recorded at fair value. Under the terms of certain of these agreements (charitable remainder trusts), the assets are held in trust for the lives of the other income beneficiaries, and upon death, the trusts are terminated and the remaining assets transferred to the College in accordance with the donor's stated restrictions, if any. Liabilities under split-interest agreements represent the present value of estimated contractual payments calculated on an actuarial basis. These calculations require assumptions to be made as to discount rates as of the date of each gift, consideration of the life expectancies of the other beneficiaries, estimated rate of return on invested assets and other factors. The difference between the fair value of assets received, and liabilities assumed, is recognized as gift revenue. During the term of these agreements, adjustments are made to recognize changes in the value of split-interest agreements resulting from changes in actuarial assumptions.

Gift revenues recognized under split-interest agreements are recorded as increases in temporarily restricted net assets unless the donor has permanently restricted the College's use of its interest or has given the College the right to use the assets without restriction. If assets become available for unrestricted use upon termination of the agreements, appropriate amounts are reclassified from temporarily restricted to unrestricted net assets.

Fixed Assets and Depreciation

Land, buildings and equipment are stated at an estimate of original cost, based on independent appraisals, or at cost, less accumulated depreciation, computed on a straight-line basis over the estimated useful lives of buildings (40-50 years), land improvements (20 years), equipment and library books (3-10 years), automotive equipment (5 years) and certain computer equipment (3-5 years). Maintenance and repairs are charged to expense as incurred; replacements and betterments are capitalized. All assets with a purchased cost, or fair value if acquired by gift, in excess of \$2,000 are capitalized.

Contributed property and equipment is recorded at fair value at the date of donation. If donors stipulate how long the assets must be used, the contributions are recorded as restricted support. In the absence of such stipulations, contributions of property and equipment are recorded as unrestricted support. The College reports expirations of donor restrictions when the donated or required long-lived assets are placed in service.

Collection items, such as works of art, are capitalized at cost, if purchased, or at their appraised or fair value, if contributed. Gains or losses from deaccessions of these items are reflected on the statement of activities as a change in the appropriate net asset class, depending on the existence and type of donor-imposed restriction.

Self-Insurance

The College participates in a health insurance consortium cooperation agreement ("Consortium Agreement") and a health plan trust agreement ("Trust Agreement"). The Consortium Agreement is a self-funded insurance plan to cover medical claims for the employees of the participants in the consortium. Under the terms of the Trust Agreement, a trust account was established to administer the cash receipts, stop/loss premium and medical claim payments. At each year end, the estimated self-insurance liability, which includes an estimate of incurred but not reported claims, based on data compiled from historical experience is calculated. At June 30, 2016 and 2015, payments made to the trust throughout the year, net of all claims paid from the trust exceed the amount of this estimated liability. This overfunding is recorded in other non-current assets in the consolidated Statement of Financial Position.

Impairment of Long-Lived Assets

Management of the College reviews long-lived assets (including property and equipment and other assets) for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Management considers the undiscounted cash flow expected to be generated by the use of the asset and its eventual disposition to determine when, and if, an impairment has occurred. An impairment loss is recognized to the extent that the carrying value of assets exceeds their fair value. Any write-downs due to impairment are charged to operations at the time impairment is identified. No such write-downs were required during the years ended June 30, 2016 and 2015.

Deferred Financing Costs

Costs incurred in connection with debt financing are deferred and amortized over the term of the related debt using the straight-line method, which approximates the interest method. Amortization expense was approximately \$73,000 in 2016 and \$ 37,000 in 2015. Deferred financing costs are presented as a reduction in the carrying amount of the debt liability on the statement of financial position. See Note 9.

Derivative Financial Instrument

In managing its interest rate exposure, MCHI utilizes an interest rate swap arrangement. An interest rate swap is a contractual exchange of interest payments between two parties. A typical interest rate swap involves the payment of a fixed rate times a notional amount by one party in exchange for a floating rate times the same notional amount from another party. To the extent a swap agreement has a positive fair value, indicating that the counterparty to the agreement owes MCHI money, MCHI is exposed to credit risk. The counter party to the MCHI's interest swap agreement is a major financial institution. MCHI recognizes the interest rate swap agreements at fair value and records changes in fair value in the statement of activities.

Government Grants and Student Aid

The amounts under these captions do not include amounts remitted to students under the Pennsylvania Higher Education Assistance Agency (PHEAA), the PELL Grants Program, and other federal and state programs. The grants are similar to agency funds since the College acts only as custodian and disbursing agent for these funds. Had these amounts been included, revenues and expenditures would have increased by approximately \$4,605,000 and \$4,012,000 in 2016 and 2015, respectively.

Functional Allocation of Expenses

The statement of activities presents expenses by functional classification. Accordingly, depreciation, interest expense and other expenses have been allocated to functional classifications based on various factors.

Advertising

The College expensed advertising costs of approximately \$203,000 and \$295,000 during the fiscal years ended June 30, 2016 and 2015, respectively.

Refundable Grants

Operating funds designated by government funding agencies for particular operating purposes are deemed to be earned and reported as revenues when the College has incurred expenditures in compliance with the contract. Amounts received but not yet earned are reported as refundable grants.

Title IV Requirements

Moravian College participates in Government Student Financial Assistance Programs ("Title IV") administered by the U.S. Department of Education ("ED") for the payment of student tuitions. A substantial number of College students are dependent upon the College's continued participation in the Title IV programs for assistance in tuition payment.

Moravian College

Notes to Consolidated Financial Statements
June 30, 2016 and 2015

Institutions participating in Title IV programs are also required by ED to demonstrate financial responsibility. ED determines an institution's financial responsibility through the calculation of a composite score based upon certain financial ratios as defined in regulations. Institutions receiving a composite score of 1.5 or greater are considered fully financially responsible. Institutions receiving a composite score between 1.0 and 1.5 are subject to additional monitoring and institutions receiving a score below 1.0 are required to submit financial guarantees in order to continue participation in the Title IV programs. As of June 30, 2016 and 2015 for the years then ended, the College's composite score exceeded 1.5.

Income Taxes

Moravian College and MCHI qualify as tax-exempt, nonprofit organizations under Section 501(c)(3) of the Internal Revenue Code. Accordingly, there is no provision for federal or state income taxes.

The College accounts for uncertainties in income taxes in accordance with authoritative guidance, which prescribes a recognition threshold of more-likely-than-not to be sustained upon examination by the appropriate taxing authority. Measurement of the tax uncertainty occurs if the recognition threshold has been met. Management determined that there were no tax uncertainties that met the recognition threshold at June 30, 2016 and 2015.

The College's policy is to recognize interest related to unrecognized tax benefits in interest expense and penalties in operating expenses.

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Subsequent Events

Subsequent events were evaluated through October 17, 2016, the date the consolidated financial statements were issued.

New Accounting Pronouncements Adopted

In January 2016, the FASB issued Accounting Standards Update (“ASU”) No. 2016-01, *Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities*. This new guidance is intended to improve the recognition and measurement of financial instruments and eliminates the requirement to disclose the fair value of financial instruments measured at amortized cost for institutions that are not public business entities. For non-public business entities, ASU 2016-01 is effective for fiscal years beginning after December 15, 2018, with early adoption permitted for fiscal years beginning after December 15, 2017. However, the new guidance permits entities that are not public business entities to adopt upon issuance the provision that eliminates the requirement to disclose the fair value of financial instruments measured at amortized cost. The College elected to adopt this provision in fiscal 2016.

New Accounting Pronouncements Not Yet Adopted

In May 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers*. This new accounting guidance was issued that outlines a single comprehensive model for entities to use in accounting for revenue from contracts with customers. For public business entities, including not-for-profit organizations that have issued, or are a conduit bond obligor for, securities that are traded, listed or quoted on an exchange or an over-the-counter market, ASU 2014-09 is effective for fiscal years beginning after December 15, 2017. For all other entities, the ASU is effective for fiscal years beginning after December 15, 2018. Early application is permitted for all entities for fiscal years beginning after December 15, 2016. The College is assessing the impact this new standard will have on its consolidated financial statements.

In February 2016, the FASB issued ASU No. 2016-02, *Leases*. ASU 2016-02 was issued to increase transparency and comparability among entities. Lessees will need to recognize nearly all lease transactions (other than leases that meet the definition of a short-term lease) on the consolidated statement of financial position as a lease liability and a right-of-use asset (as defined). Lessor accounting under the new guidance will be similar to the current model. For public business entities, including not-for-profit organizations that have issued, or are a conduit bond obligor for, securities that are traded, listed or quoted on an exchange or an over-the-counter market, ASU 2016-02 is effective for fiscal years beginning after December 15, 2018. For all other entities, the ASU is effective for fiscal years beginning after December 15, 2019. Early application is permitted for all entities. Upon adoption, lessees and lessors will be required to recognize and measure leases at the beginning of the earliest period presented using a modified retrospective approach, which includes a number of optional practical expedients that entities may elect to apply. The College is assessing the impact this standard will have on its consolidated financial statements.

In August 2016, the FASB issued ASU No. 2016-14, *Not-for-Profit Entities (Topic 958): Presentation of Financial Statements of Not-for-Profit Entities*. The new guidance is intended to improve and simplify the current net asset classification requirements and information presented in financial statements and notes that is useful in assessing a not-for-profit's liquidity, financial performance and cash flows. ASU 2016-14 is effective for fiscal years beginning after December 15, 2017, with early adoption permitted. ASU 2016-14 is to be applied retroactively with transition provisions. The College is assessing the impact this standard will have on its consolidated financial statements.

Moravian College

Notes to Consolidated Financial Statements
June 30, 2016 and 2015

3. MCHI Acquisition

Effective December 10, 2015, the College completed the acquisition of and became the sole corporate member of MCHI in exchange for \$3,300,000 in cash, net of cash acquired of approximately \$1,179,000 as well as the assumption of certain debt and other liabilities. The acquisition was accounted for under the acquisition method of accounting and the operating results of MCHI have been included in the consolidated financial statements from the date of acquisition. The effective allocation of the purchase transaction and acquisition accounting on December 10, 2015 has been recorded as follows:

Purchase price - cash, net of cash acquired	\$	2,121
Acquired assets and liabilities assumed:		
Prepaid expenses		34
Buildings and equipment		27,873
Accounts payable		(23)
Deferred rent revenue		(1,151)
Loan payable, related parties		(1,614)
Revenue note payable		(19,940)
Interest rate swap		<u>(1,285)</u>
Net assets acquired		<u>3,894</u>
Inherent contribution recognized on acquisition	\$	<u>1,773</u>

The fair value of the assets acquired exceeded the purchase price of the acquisition. Accordingly, an inherent contribution in the amount of \$1,773,000 has been recognized in the nonoperating section of the accompanying consolidated statement of changes in net assets. During the year ended June 30, 2016, the College incurred acquisition costs of approximately \$15,000 related to the acquisition of MCHI.

Impacting on Operating Results

The results of MCHI's activities have been included in Moravian College's consolidated financial statements since the December 10, 2015 date of acquisition. The following table provides revenue and results of operations from the MCHI included in the College's June 30, 2016 consolidated statement of activities:

		<u>2016</u>
Revenues	\$	828
Changes in unrestricted net assets		(179)

Moravian College

Notes to Consolidated Financial Statements
June 30, 2016 and 2015

The following unaudited pro forma information assumes the acquisition of MCHI occurred at the beginning of the respective periods presented. The unaudited pro forma information presented below is for illustrative purposes only and does not reflect future events that may occur after June 30, 2016 or any operating efficiencies or inefficiencies that may result from the MCHI acquisition and related financing. Therefore, the information is not necessarily indicative of results that would have been achieved had the business been combined during the periods presented or the results that the College will experience going forward.

	Unaudited Pro Forma Information For the Year Ended	
	2016	2015
Revenues	\$ 1,509	\$ 1,517
Changes in unrestricted net assets	(627)	(618)

4. Accounts Receivable

Accounts receivable represents amounts due for tuition, fees, room and board and other charges from students and other entities. The College extends unsecured credit to students and other entities in connection with studies and various activities. Some students are no longer enrolled or have completed their degrees. Accounts receivable consists of the following at June 30 (in thousands):

	2016	2015
Accounts receivable	\$ 1,662	\$ 1,369
Allowance for doubtful accounts	(201)	(147)
	<u>\$ 1,461</u>	<u>\$ 1,222</u>

5. Contributions Receivable

Contributions received, including unconditional promises, are recognized as revenue when the donor's commitment is received. Unconditional promises are recognized at the estimated present value of the future cash flows, net of allowances (fair value).

Contributions receivable consisted of the following at June 30 (in thousands):

	2016	2015
Due in one year or less	\$ 2,879	\$ 486
Due between one year and five years	10,067	328
Contributions receivable, gross	12,946	814
Unamortized discount	(681)	(49)
Contributions receivable, net	<u>\$ 12,265</u>	<u>\$ 765</u>

The net present value of these cash flows was determined by using discount rates between 1.0% and 6.2% to account for the time value of money.

Management has not established an allowance for doubtful collections at June 30, 2016 and 2015 based upon information currently known. However, events impacting donors can occur in subsequent years that may cause a material change in the allowance for doubtful collections.

6. Fair Value Measurements, Investments and Other Financial Instruments

The College measures its deposits with trustees, investments, beneficial interest in perpetual trusts and split interest agreements at fair value on a recurring basis in accordance with accounting principles generally accepted in the United States of America. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The framework that the authoritative guidance established for measuring fair value includes a hierarchy used to classify the inputs used in measuring fair value. The hierarchy prioritizes the inputs used in determining valuations into three levels. The level in the fair value hierarchy within which the fair value measurement falls is determined based on the lowest level input that is significant to the fair value measurement. The levels of the fair value hierarchy are as follows:

Level 1 - Fair value is based on unadjusted quoted prices in active markets that are accessible to the College for identical assets or liabilities. These generally provide the most reliable evidence and are used to measure fair value whenever available.

Level 2 - Fair value is based on significant inputs, other than Level 1 inputs, that are observable either directly or indirectly for substantially the same term of the asset or liability through corroboration with observable market data. Level 2 inputs include quoted market prices in active markets for similar assets, quoted market prices in markets that are not active for identical or similar assets, and other observable inputs.

Level 3 - Fair value is based on significant unobservable inputs. Examples of valuation methodologies that would result in Level 3 classification include option pricing models, discounted cash flows, and other similar techniques.

Moravian College

Notes to Consolidated Financial Statements

June 30, 2016 and 2015

The following tables present the financial instruments measured at fair value as of June 30, 2016 and 2015 by caption on the statement of financial position by the valuation hierarchy defined above (in thousands):

	2016			Total Fair Value
	Level 1	Level 2	Level 3	
Assets reported at fair value:				
Investments:				
Cash and money market accounts	\$ 3,329	\$ -	\$ -	\$ 3,329
Domestic equity:				
Common stock	1,487	-	-	1,487

Alternative investments (measured at net asset value)				32,677
Total investments				\$ 105,577

Moravian College

Notes to Consolidated Financial Statements
June 30, 2016 and 2015

	2015			Total Fair Value
	Level 1	Level 2	Level 3	
Deposits with trustee under debt agreements:				
Cash and cash equivalents	\$ 3,119	\$ -	\$ -	\$ 3,119
U.S. government securities	2,041	-	-	2,041
Total deposits with trustee under debt agreements	5,160	-	-	5,160
Beneficial interest in perpetual trusts	-	-	2,119	2,119
Split interest agreements	-	-	2,172	2,172
Total assets	<u>\$ 73,951</u>	<u>\$ 4,109</u>	<u>\$ 4,291</u>	<u>\$ 82,351</u>

The following methods and assumptions were used to estimate fair values of the College's financial instruments as of June 30, 2016 and 2015:

Cash and Cash Equivalents

The carrying amounts are reasonable estimates for their fair values due to the short-term nature of these financial instruments. These are considered Level 1 measurements due to their liquidity.

Investments

The fair value of equity funds and domestic fixed income securities was based on quoted market prices for the identical securities, which are considered Level 1 inputs. The fair value of international fixed income securities was based on quoted market prices in active markets for similar assets, which are considered Level 2 inputs.

The fair value of alternative investments was based on estimated fair values using net asset value (“NAV”) per share of the investment as provided by investment managers, as a practical expedient, without further adjustment, unless it is probable that the investment will be sold at a significantly different value. If not determined as of the College’s measurement date, NAV is adjusted to reflect any significant events that would materially affect the security’s value. Certain attributes that impact the security’s fair value may not be reflected in NAV, including, but not limited to, the investor’s ability to redeem the investment at the measurement date and unfunded purchase commitments. If the College sold all or a portion of its alternative investments, it is reasonably possible that the transaction value could differ significantly from the estimated fair value at the measurement date, because of the nature of the investments, changes in market conditions and the overall economic environment. In accordance with Subtopic 820-10, investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the table above are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of financial position.

Beneficial Interest in Perpetual Trusts and Split-interest Agreements

The fair value of the beneficial interest in perpetual trusts and split-interest agreements was based on the College’s percent ownership of the underlying trust assets, which approximates the present value of estimated cash flows to be received and are considered Level 3 inputs.

Interest Rate Swap

Interest rate swaps are classified as Level 2 as the fair value is based on observable inputs to a valuation model (interest rates, credit spreads, etc.) which take into account the present value of the estimated future cash flows and credit valuation adjustments.

Alternative Investments

Alternative investments are funds and partnerships that invest in a variety of strategies including private equity, real estate, multi-strategy and long/short equities. These are generally illiquid investments, pooled and professionally managed with the goal of generating high returns.

The Hedge Funds category includes investments in several funds. These funds allocate their assets to hedge fund managers that specialize in a wide range of alternative investment strategies. The funds offer the College exposure to a broad range of hedge fund strategies including long/short, global macro, emerging markets, event-driven, distressed credit, multi-strategy and emerging markets. The hedge funds in this category have redemption frequencies that include monthly, quarterly, or semi-annual redemption requirements

The Private Equity Funds category includes investments in several funds. These funds invest in a variety of private equity partnerships and other private equity investments. Investments include leveraged buyouts, growth equity, venture capital, mezzanine debt, real estate, distressed debt and funds of funds as well as portfolios of direct and co-investments.

Moravian College

Notes to Consolidated Financial Statements
June 30, 2016 and 2015

The Real Asset Funds category includes investments in several funds. Two of the funds in this category invest in various types of real estate, including retail, hotel, office, apartment, industrial and storage property throughout the United States, Mexico and Canada. One of the funds in this category invests in a select group of investment funds in the natural resource sector with an emphasis on crude oil and natural gas production and timberland, but with exposure to funds investing in farmland and metals and minerals as well.

Fair value measurements of investments in certain entities that calculate net asset value ("NAV") per share (or its equivalent) as of June 30, 2016 are as follows (in thousands):

	<u>Fair Value at NAV</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency</u>	<u>Redemption Notice Period</u>
Hedge Funds	\$ 17,156	\$ -	Various	35 - 65 days
Private Equity Funds	11,969	11,187	Illiquid	
Real Asset Funds	<u>1,986</u>	<u>1,248</u>	Illiquid	
	<u>\$ 31,111</u>	<u>\$ 12,435</u>		

For assets falling within the Level 3 in the fair value hierarchy, the activity recognized during the year ended June 30, 2016 and 2015 are as follows (in thousands):

	<u>Beneficial Interest in Perpetual Trusts</u>	<u>Split-Interest Agreements</u>	<u>Level 3 Total</u>
Balance at June 30, 2014	\$ 2,212	\$ 2,209	\$ 4,421
Unrealized losses	<u>(93)</u>	<u>(37)</u>	<u>(130)</u>
Balance at June 30, 2015	2,119	2,172	4,291
Unrealized losses	<u>(99)</u>	<u>(287)</u>	<u>(386)</u>
Balance at June 30, 2016	<u>\$ 2,020</u>	<u>\$ 1,885</u>	<u>\$ 3,905</u>

Moravian College

Notes to Consolidated Financial Statements

June 30, 2016 and 2015

Investments

The majority of endowment, annuity and life income funds are combined in investments pools with each individual account subscribing to or disposing of shares on the basis of the market value per share. The investment objective is to maximize long term total return through a combination of income and capital appreciation in a manner consistent with sound investment practices. Total investments at June 30 were as follows (in thousands):

	<u>2016</u>	<u>2015</u>
Endowment funds	\$ 97,544	\$ 101,204
Annuity and life income funds	1,115	1,438
Capital campaign funds	1,096	887
Other funds	<u>1,962</u>	<u>2,048</u>
	<u>\$ 101,717</u>	<u>\$ 105,577</u>

The College has a formal investment policy that provides a portion of investment return for operating purposes. The Board of Trustees sets the level of distribution within the limitation imposed by Pennsylvania statute.

The College's principal financial instruments subject to credit risk are its investments. The investments are managed by professional advisors subject to the College's investment policy. The degree and concentration of credit risk varies by type of investment.

7. Land, Buildings, and Equipment, Net

Land, buildings, and equipment, net consist of the following at June 30 (in thousands):

	<u>2016</u>	<u>2015</u>
Land and land improvements	\$ 17,180	\$ 16,429
Buildings	142,254	108,464
Equipment	36,959	32,451
Library books	9,557	9,474
Collection items	4,227	4,224
Construction in progress	<u>4,976</u>	<u>1,028</u>
	215,153	172,070
Accumulated depreciation	<u>(84,622)</u>	<u>(77,886)</u>
	<u>\$ 130,531</u>	<u>\$ 94,184</u>

Depreciation expense was approximately \$6,963,000 and \$5,487,000 in 2016 and 2015, respectively.

Moravian College

Notes to Consolidated Financial Statements
June 30, 2016 and 2015

8. Note Payable, Demand

The College has a \$1,000,000 unsecured line of credit, which is renewable March 31 of each year. Borrowings bear interest, payable monthly, at the London Interbank Offered Rates ("LIBOR") plus 1.50%. There were no borrowings at June 30, 2016 and 2015.

9. Long-Term Debt

Long-term debt of the College consisted of the following at June 30 (in thousands):

	<u>2016</u>	<u>2015</u>
College Revenue Bonds of 2012, due serially in annual amounts through 2032, with interest payable semi-annually ranging from 0.5% to 5.07%.	\$ 19,285	\$ 19,860
College Revenue Bonds of 2013, due serially in annual amounts through 2042, with interest payable semi-annually ranging from 1.6% to 4.125%.	9,365	9,585
College Revenue Bonds of 2005, called on July 1, 2015.	-	1,930
Bank Qualified Debt issued by Northampton County Industrial Development Authority, repaid in 2016.	-	3,979
College Revenue Bonds of 2016, due serially in annual amounts starting in 2018 through 2035, with interest payable semi-annually ranging from 2.125% to 5.0%.	28,560	-
Note payable, due in annual principal repayments starting in 2018 through 2035 and interest payable semi-annually at 2.99% through July 2016, 3.65% through July 2025, then LIBOR thereafter.	5,825	-
MCHI Revenue Bonds of 2008, due serially in monthly amounts through 2037, with interest payable monthly at 68% of LIBOR plus 2.00% (2.33% at June 30, 2016).	19,670	-
Equipment financing, interest ranging from 2.4% to 4.8%, due in equal installments through 2020 for technology equipment.	2,209	492
	<u>84,914</u>	<u>35,846</u>
Less deferred financing costs	(667)	(481)
Less current portion	(1,964)	(6,823)
Original issue premium	<u>3,034</u>	<u>561</u>
Long-term debt	<u>\$ 85,317</u>	<u>\$ 29,103</u>

On July 1, 2015, the College Revenue Bonds of 2005 with final maturities of July 2017 and 2019 were called for redemption at par. The redemption totaled \$1,930,000 and was funded by deposits with trustee under debt agreement and operating cash and cash equivalents.

The indentures of the College Revenue Bonds of 2012, 2013, and 2016 require the College to pledge as collateral its unrestricted gross revenues not previously pledged.

Moravian College

Notes to Consolidated Financial Statements
June 30, 2016 and 2015

The College Revenue Bonds of 2012 require that the College maintain a debt service reserve fund in accordance with the revenue bond document.

The MCHI Revenue Bonds of 2008 require that MCHI maintain a debt service reserve fund in accordance with the revenue bond document.

The HILL dormitory is the only pledged asset of the MCHI Revenue Bonds of 2008, thus the debt is separate from the obligated group of the College and neither entity may claim more than their respective revenues.

Principal repayments of long-term debt for the years ending after June 30, 2016 are as follows (in thousands):

2017	\$ 1,964
2018	2,490
2019	2,931
2020	2,931
2021	3,031
Later years	<u>71,567</u>
	<u>\$ 84,914</u>

Interest expense related to long-term debt was approximately \$2,182,000 and \$1,424,000 in 2016 and 2015, respectively.

10. Interest Rate Swap Agreement

MCHI executed an interest rate swap agreement, which is considered a derivative financial instrument, to hedge its variable rate interest rate payments. The swap agreement requires MCHI to make 3.33% fixed interest payments and receive variable interest rate payments from its counter party based on USD-SIFMA Municipal Swap Index rate. The notional amount outstanding on the agreement was \$19,940,000 at June 30, 2016. The variable rate at June 30, 2016 was .41% and the fair value of the swap instrument was approximately \$(1,019,000). The swap agreement terminates on April 1, 2018.

11. Employee Benefit Plan

The College participates in a defined contribution pension plan covering substantially all regular full-time employees. Pension expense was approximately \$1,536,000 and \$1,255,000 in 2016 and 2015, respectively.

Moravian College

Notes to Consolidated Financial Statements
June 30, 2016 and 2015

12. Postretirement Benefits Other than Pensions

The College provides postretirement benefits other than pensions to its employees. The benefits are limited to retirees between ages 60 and 65. These benefits include partial reimbursements of premiums on medical insurance policies for employees and certain spouses and are available to all employees hired prior to January 1, 2004 who retire after 15 years of service to the College at age 60 or older. The College does not prefund these postretirement benefit obligations. Payments made to or on behalf of beneficiaries under these obligations, representing both employer contributions and benefits paid were approximately \$69,000 in 2016 and \$57,000 in 2015. The measurement date used to determine the postretirement benefit obligation was June 30.

Changes in the College's postretirement benefit obligation related to the retiree healthcare plan were as follows for the year ended June 30 (in thousands):

	<u>2016</u>	<u>2015</u>
Projected benefit obligation, beginning	\$ 415	\$ 456
Service cost	24	27
Interest cost	13	15
Actuarial gain/loss	61	(26)
Benefits paid	<u>(69)</u>	<u>(57)</u>
Projected benefit obligation, ending	<u>\$ 444</u>	<u>\$ 415</u>

Amounts recognized on the consolidated statement of financial position as liabilities consist of the following at June 30 (in thousands):

	<u>2016</u>	<u>2015</u>
Current portion of postretirement benefit obligation	\$ 58	\$ 44
Noncurrent portion of postretirement benefit obligation	<u>386</u>	<u>371</u>
Accrued pension liability, net	<u>\$ 444</u>	<u>\$ 415</u>

Weighted average assumption used to develop the projected benefit obligations and net periodic pension cost is as follows at June 30:

	<u>2016</u>	<u>2015</u>
Discount rate	3.5 %	3.5 %
Rate of increase in compensation levels	2.5	2.5

Moravian College

Notes to Consolidated Financial Statements June 30, 2016 and 2015

The College's net postretirement benefit cost includes the following components for the years ended June 30 (in thousands):

	<u>2016</u>	<u>2015</u>
Service cost	\$ 24	\$ 27
Interest cost	<u>13</u>	<u>15</u>
	<u>\$ 37</u>	<u>\$ 42</u>

The College limits the increase in its contribution to the lesser of 5% or the annual compensation rate of increase. Therefore, increases in the costs of the benefits provided have no effect on the College's postretirement benefits other than pension cost. Contributions in the next fiscal year are expected to be approximately \$58,000.

The following benefit payments are expected to be paid (in thousands):

2017	\$ 58
2018	61
2019	64
2020	69
2021	65
2022 - 2026	231

13. Net Assets

Permanently restricted net assets are restricted for the following as of June 30 (in thousands):

	<u>2016</u>	<u>2015</u>
Net assets related to certain split-interest agreements	\$ 2,821	\$ 2,976
Assets held in perpetuity	<u>67,653</u>	<u>61,254</u>
	<u>\$ 70,474</u>	<u>\$ 64,230</u>

Temporarily restricted net assets are available for the following purpose or in future periods as of June 30 (in thousands):

	<u>2016</u>	<u>2015</u>
Net assets related to certain split-interest agreements	\$ 953	\$ 1,174
Specified purposes	<u>30,628</u>	<u>28,772</u>
	<u>\$ 31,581</u>	<u>\$ 29,946</u>

Moravian College

Notes to Consolidated Financial Statements
June 30, 2016 and 2015

Unrestricted net assets are designated for the following as of June 30 (in thousands):

	<u>2016</u>	<u>2015</u>
Long-term investments	\$ 18,102	\$ 17,417
Plant facilities	66,433	62,936
Other	<u>28</u>	<u>366</u>
	<u>\$ 84,563</u>	<u>\$ 80,719</u>

14. Endowment

The College's endowment consists of individual funds established for a variety of purposes. It includes both donor-restricted endowment funds and funds designated by the Board of Trustees to function as endowments. As required by accounting principles generally accepted in the United States of America, net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

Interpretation of Relevant Law

The Board of Trustees of the College has developed a policy requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent any explicit donor stipulations to the contrary. As a result of this interpretation, the College classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as either temporarily restricted or unrestricted net assets based on the existence of donor restrictions or by law. Board designated investment funds are balances functioning as an endowment that are established by the institution from either donor or institutional monies, and are usually to be retained and invested rather than expended. Since board designated investment funds are established by the institution rather than an external source, the principal may be expended, as directed by the Board of Trustees.

The College considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

1. The duration and preservation of the fund.
2. The purposes of the College and the donor-restricted endowment fund.
3. General economic conditions.
4. The possible effect of inflation and deflation.
5. The expected total return from income and appreciation of investments.
6. The investment policies of the College.

Moravian College

Notes to Consolidated Financial Statements June 30, 2016 and 2015

The following schedule represents the endowment net asset composition by type of endowment fund as of June 30, 2016 (in thousands):

	<u>Unrestricted</u>	<u>Temporarily Restricted</u>	<u>Permanently Restricted</u>	<u>Total</u>

Assets, end of year	<u>\$ 17,417</u>	<u>\$ 22,920</u>	<u>\$ 60,606</u>	<u>\$ 100,943</u>

Funds with Deficiencies

The fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or the relevant state law requires the College to retain as a fund of perpetual duration. In accordance with authoritative guidance, these deficiencies are reported as unrestricted net assets. There were no such deficiencies reported at June 30, 2016 or 2015.

Return Objectives and Risk Parameters

The College has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowments while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that the College must hold in perpetuity or for a donor-specified period as well as board-designated funds. Under this policy, as approved by the Board of Trustees, the endowment assets are invested in a manner that is intended to produce results that exceed the spending policy rate plus the expected inflation rate. The College expects its endowment fund, over time, to provide an average rate of return of approximately 7.5% annually. Actual returns in any given year may vary from this amount.

Strategies Employed for Achieving Objectives

The College relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The College targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints.

Endowment Spending Policy and How the Investment Objectives Relate to the Spending Policy

The College has a total return policy of appropriating for distribution each year a percent of its endowment fund's average fair value over the past twelve calendar quarters. This percentage was 4.5% for both 2016 and 2015. If the spending policy distribution amount exceeds the actual earnings of the endowment funds in any one year, then the amount needed to fund such excess will be taken from accumulated excess earnings and net capital gains from prior years. Conversely, any undistributed income after the allocation of the spending policy distribution is added back to the temporarily restricted endowment fund balance. In establishing this policy, the College considered the long-term expected return on its endowment. Accordingly, over the long term, the College expects to allow its endowment to return an average rate of 7.5% annually prior to any distributions (spending policy). This is consistent with the College's objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term as well as to provide additional real growth through new gifts and investment return.

15. Related Party Transactions

Prior to the acquisition described in Note 3, Moravian College had collaborated with MCHI for the purpose of providing housing for the students of Moravian College. Moravian College has a subordinated loan to MCHI of \$1,000,000 at June 30, 2016, however, due to the acquisition of MCHI, that amount is now eliminated in consolidation.

16. Commitments

In connection with several ongoing projects on campus, the College has commitments to several vendors totaling approximately \$16,377,000 as of June 30, 2016. The College is using proceeds from the College Revenue Bonds of 2016 and operating cash flow to fund these projects.

17. Contingency

The College owns several buildings constructed prior to the passage of the Clean Air Act that contain encapsulated asbestos material. Current law requires that this asbestos be removed in an environmentally safe manner prior to demolition or renovation of the buildings. The College has not recognized the asset retirement obligation for asbestos removal in its consolidated financial statements because it currently has no plans to demolish or renovate these buildings and, as such, cannot reasonably estimate the fair value of the obligation. If plans change with respect to the use of the buildings and sufficient information becomes available to estimate the liability, it will be recognized at that time.
