

### **MSN STUDENT ADVISEMENT**

MSN Students are required to meet with their program director for preparing an initial program plan and for further guidance as needed. Students are responsible for knowing the requirements of their academic programs and needed courses and registering for courses in a timely manner. MSN, MSN-NP, and Post-MSN DNP curricular requirements are outlined on the SON/PH's website located here: <https://www.moravian.edu/nursing/nursing-programs>

Several months prior to each semester and summer session, students will be informed of the next session's course schedule. Course schedules and other registration information are available at the Access to Moravian Online (AMOS) intranet site. Courses are ordinarily offered to facilitate program completion, yet there may be times when a course is not available during a semester when the student needs it to be.

The student should discuss with the program director at least once per academic year to confirm the student's program completion plan.
